RE: END OF TERM 111 CIRCULAR 2024

On behalf of the school management, directors, administration and entire fraternity of Joshua Cheptegei Junior School, allow me deliver our warm greetings and thank you for the invaluable support and co-operation you have portrayed since the year started. We have successfully come to the end of the year.

May the lord’s name be glorified.

Today the 29/11/2024 marks the official closure of term 111 2024 and your child has been sent home with a report card, past papers and a circular. Please read through every document mentioned so as to analysis a clear stand of your child’s academic performance and what the school requires of you.

ACADEMIC IMPROVEMENT

The committed staff has conducted actual teaching as required.

Enough sets of exams have been done both internal and external. Many of our pupils have improved in performance. However, we still have learners who have not performed to the expectation. Parents are requested to critically observe the children’s performance and encourage them accordingly.

HEALTH

Most of our learners have been healthy except a few minor cases that were managed by the school Nurse and external partners whenever it was severe. All adolescent girls must come with enough sanitary pads. Parents are reminded to always give a brief report about the health of the children.

DISCIPLINE

Generally our learners have been well behaved throughout the year. The few ordinary cases of indiscipline were handled accordingly. Dear parents, you are requested to give particular attention and observation to children's discipline and continue guiding them.
